REPAIR - REBUILD CONSTRUCT

all types of equipment
and machinery

IT'S A COMPLETE SHOP
IN ITSELF

Welds - Brazes - Solders
Bores holes - Thaws pipes
Cuts - Heats for forming - Etc.

Made by the World's Oldest and Largest
Builders of Welders for Farms and Shops

EVERYTHING NEEDED IN POWER and RANGE

30 heat stages from 5 to 250
Amps. Correct Voltage rating
reduces splatter and gives more
efficient operation. Uses rods
from 1/16" to 3/16"

NOTE: Farms on rural power
lines may require approval for
installation of this more power-
ful unit. It may be necessary to
see the local power company
before you install, unless this
size welder has already been
approved.

UNCONDITIONALLY GUARANTEED

This unit is unconditionally
guaranteed for two years, and
also carries an 8-year service
warranty.

THE LATEST FORNEY C-5 is better than ever

A COMPLETE REPAIR UNIT COMPLETELY EQUIPPED

A WELDER

20 heat stages, 20 to 180 amps.
Uses 1/16" to 3/16" electrodes.
Calibrated voltage. Easy striking arc.

A SOLDERING UNIT

Instant heat soldering for light radio work up to heavy copper work.

A BRAZING UNIT

All types of brazing, ferrous and non-ferrous metals. Supplies 9000°.

A HARD-FACING UNIT

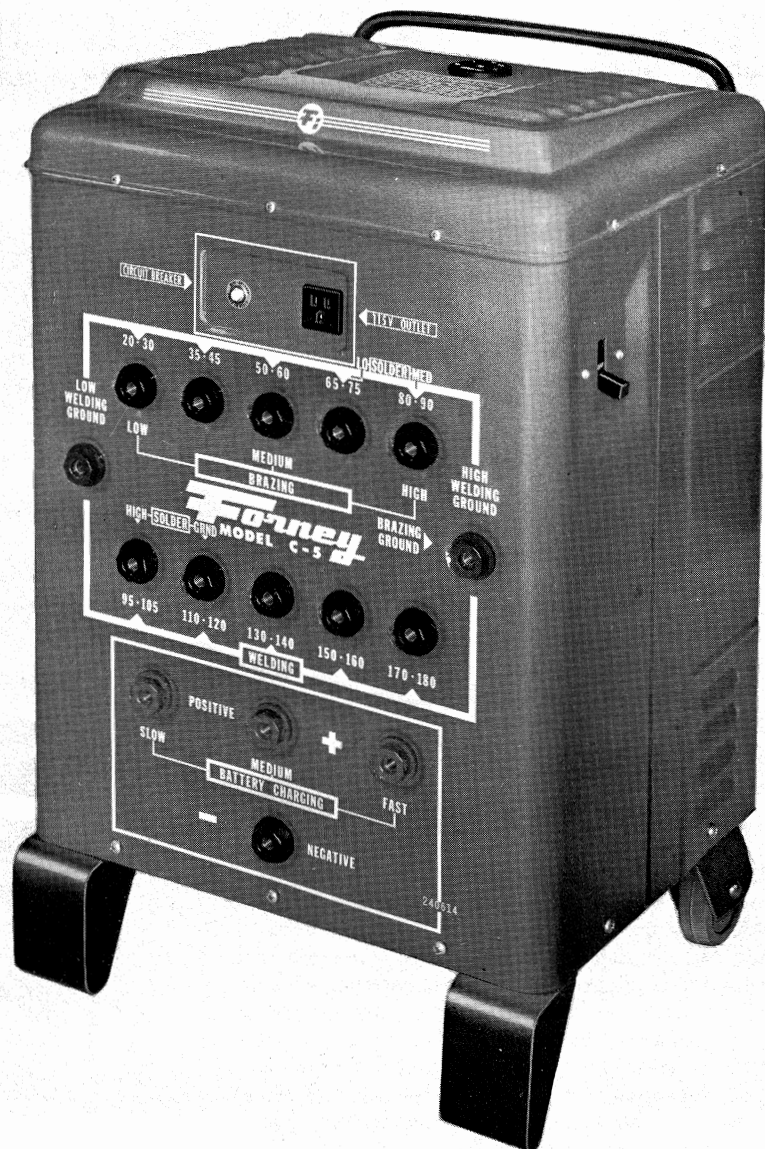

Hard face all parts of Industrial and Agricultural equipment subject to abrasion and wear.

A PIPE THAWER

Thaws pipes in a few minutes even underground. No flame or danger. Electric current flows through pipe.

IN ADDITION

This Super Forney has a 115-volt convenience outlet for trouble lights, power tools, and other electrical appliances. Outlet is equipped with automatic breaker which protects fractional HP motors against overloading.

COMBINATION REPAIR UNIT

A quarter century of know-how is packed into this new, improved unit, making it more versatile than ever.

It offers hundreds of uses in hundreds of businesses.
