

IT'S A WELDER

- a Fast Charger with Timer —
- a Soldering Unit
- a Brazing Outfit
- a Pipe Thawer

**HUNDREDS of USES
in HUNDREDS of
BUSINESSES**

Capacitor Equipped

ALL THESE ACCESSORIES INCLUDED

Forney C-5_{BT} THE COMPLETELY SAFE REPAIR UNIT

PRECISION BUILT

This FORNEY C-5BT is a precision built machine with patented vertical windings, made of the finest materials obtainable. The core is of highest quality laminated silicon steel; the windings from the very best magnet wire. Highest quality insulation goes into its weather-proof and fireproof construction. It has built-in double voltage arc booster that eliminates need of high frequency arc starters. There is calibrated voltage for each amperage setting.

Tested with 1750 Volts—almost 8 times the required operating current and 300 volts more than required by U. L. Tests. This is your guarantee against short circuits or mechanical defects.

UNCONDITIONALLY GUARANTEED

Forney Industries agrees to repair or replace the FORNEY C-5BT without charge except transportation to the original owner, if for any reason, it fails to give satisfactory service within a period of two years from date of purchase.

Operating Voltage	230	Size Rod	1/16" to 3/16"
(others available)		Percentage Ratio of Short Circuited Current to Output Current	150%
Frequency (others available)	60	Max. Open Circuit Volts	80
Power Supply Circuit Breaker or fuse size	35 amp.	Max. Battery Charging Output at 6-v., 60 amp. — at 12 v., 30 amp.	
Primary Amps, 32 - Phase	1	Height	31 1/4"
Welding Range	20 - 180 amp.	Width	20 1/4"
Welding Stages	20	Depth	18 3/4"
Rated Duty Cycle	20%	Crated Weight	175 lbs.
Power Factor	80%	Kit Weight	33 lbs.
Rated Output Volts	25
